 <https://github.com/Akchiche-Mohamed-Aymen>  Ouargla , Algeria

SUMMARY :

Enthusiastic Front-End Developer with hands-on experience in building responsive and user-friendly web applications using **React**, **Redux**, and modern styling frameworks like **Sass** and **Tailwind CSS**. Adept at implementing state management, API integrations, and creating interactive UIs. Passionate about building scalable and accessible solutions for real-world problems. Committed to continuous learning to expand skills and stay updated with the latest industry trends. Actively seeking a remote role to contribute to impactful projects.

Education :

- I am studying computer science engineering [2023 – 2028], AI major in Kasdi Merbah university in Ouargla, Algeria .

Skills :

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frameworks/Libraries:** React.js, Redux, Material UI, Tailwind CSS, Sass.
- **Tools:** Git, GitHub, Netlify, npm
- **APIs:** REST APIs , Postman
- Data Structures and Algorithms

Projects:

1- To-Do App with Filtering:

- built a task management application with advanced filtering and responsive UI
- Implemented CRUD functionality with **React.js** and local storage for persistence
- Designed an interactive user interface using **Tailwind CSS**
- Features: Task categorization, filtering (completed , incompleted , all todos)
- Tech Stack:** React, JavaScript, Tailwind CSS, Material UI
